

How To Create Your Kanopy User Profile

Go to <https://georgina.kanopystreaming.com/restricted?destination=frontpage>

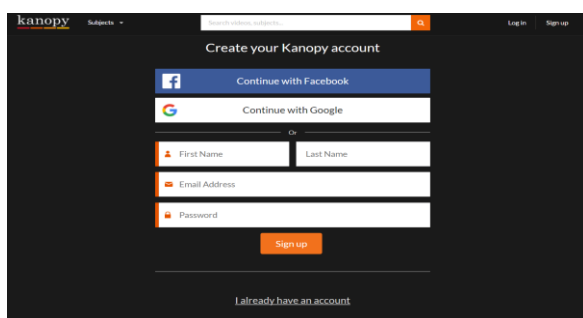

Click Continue.

You can create your personal user profile on Kanopy by selecting the "Sign up" button at the top right of the Kanopy website and follow the prompts.

You will be directed to this screen:

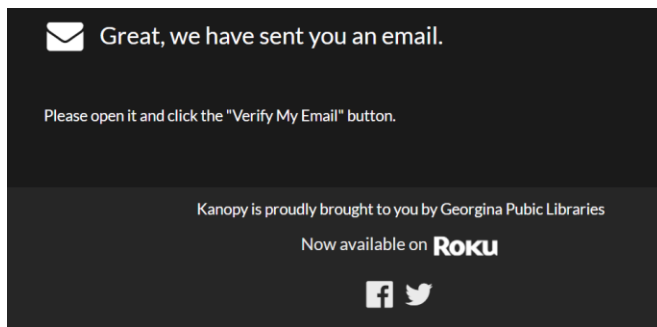

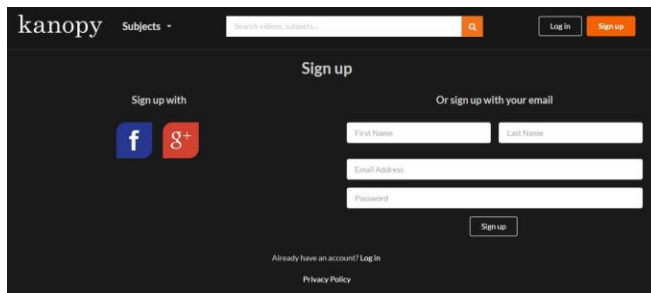

Option 1: Create your profile by either by using your social media account (Facebook, Google).

Option 2: Create your profile using your email address and a password.

If you select option 1, you will need to be signed into your Facebook/Google profile and Kanopy will ask for your name and email from those services to complete the sign up form.

If you select option 2, you will then be prompted to verify your email address - so you will need to jump over to your email inbox to click on the link there.

Once you click on the email link, you will be taken to the Kanopy website.

You can select "My Dashboard" from the dropdown menu at the top right of the page, go to the "memberships" tab, and add then add the library or libraries that you are a member of.

You are now set up! Whenever you are signed into your user profile, you can access your 'Dashboard' from the top right. On the Dashboard, you can manage your personal profile details, your clips/playlists, watch list, recently watched, comments, and more.
