

Glowforge Guidelines

Glowforge Usage Guidelines

1. **Safety First:**
 - Always wear appropriate personal protective equipment (PPE), including safety glasses.
2. **Operation:**
 - Familiarize yourself with the Glowforge laser's control panel and settings.
 - Place the material securely on the bed and ensure it is flat and level.
 - Set the appropriate laser power and speed for the material being used.
 - Double-check the positioning of the laser before starting the job.
3. **Material Compatibility:**
 - Only use materials that are approved for laser cutting/engraving.
 - Avoid materials that contain chlorine, PVC, or other toxic substances.
 - Consult the Maker Space Programmer about material compatibility.
