

THE 17TH GRATE GROAN UP SPELLING BEE FRIDAY, JUNE 12, 2026 - 6PM THE ROC CHALET

With nearly **500,000 visits annually**, Georgina Public Library is a treasured and true community resource providing free materials, programs, and access to spaces, that advances the prospects for everyone in Georgina. In 2025, our local library branches hosted **2200+ programs**, and library resources circulated almost **300,000 times!**

This lively, community-wide event will bring together local leaders, business professionals, charitable organizations, residents, and some excellent spellers for an evening of friendly competition to raise funds for expanded makerspace equipment at our four library branches.

Georgina Public Library serves a large, geographically dispersed community. For many residents, it is the most accessible educational and technological resource available. Proceeds from this event will fund new makerspace equipment, expanding access to tools such as 3D printers, creative software, and digital media equipment. These resources promote equity by ensuring that access to innovation and workforce-ready skills is not limited by income or location.

We anticipate strong attendance from community members, business leaders, and public officials, along with meaningful media and social media exposure. Your sponsorship demonstrates a commitment to education, workforce development, innovation, and equitable access across our region.

Teams of three will compete for the coveted title and bragging rights of being the Best Spellers in Georgina.

With your support, we can unlock new possibilities for our community.
